

Mugshot

Huddy

Sweet sweet sinner
She's the pain killer
The scene in the thriller where the cars going up in flames
Screaming her name
I got some shotgun vices
Drive without a license
Now I'm on the highway doing ninety, swerving out of my lane
And she's in my veins

Ain't no priest could save me
I'm too far gone, baby
God knows she should hate me now

She's in love with the boy in the mugshot
She's starry eyed even though mine are bloodshot
Only wants it if it's making her heart stop
We're never gonna change
She's in love with the boy in the mugshot
I hit rock bottom but she's still getting on top
She'd have my heart but it's stuck in a slip knot
We're never gonna change

My face on it
Poster says "Wanted"
But funny how she only seems to want me when it's late at night
When we're getting high
Or when I act out
When we're fighting neither one of us backs down
Fucking toxic, but you've just gotta laugh now
'Cause her favourite color's me when I'm blacked out
Well, I'm blacked out, I'm blacked out

Ain't no priest could save me
I'm too far gone, baby
God knows she should hate me
She should fucking hate me

She's in love with the boy in the mugshot
She's starry eyed even though mine are bloodshot
Only wants it if it's making her heart stop
We're never gonna change
She's in love with the boy in the mugshot
I hit rock bottom, but she's still getting on top
She'd have my heart but it's stuck in a slip knot
We're never gonna change

She's in love with the boy in the mugshot
