

# Partycrasher

Huddy

You knew that I was crazy when you fell in love with me

You say I'm a psycho  
You tell me that we might go up in flames  
Tell me something that I don't know  
I don't pay attention anyway

Might go out and get arrested  
I'm not really twenty one  
Blame it on my adolescence  
Fucking up is too much fun

I'm not sorry  
That I crashed your party  
When I crashed my car in your parent's yard  
And passed out on Sunset Boulevard  
I'm not evil but my love is lethal  
The truth hurts sometimes but honestly  
You knew that I was crazy when you fell in love with me  
You knew that I was crazy when you fell in love with me

Never bet an angel  
Never had a halo on my head  
Stop telling me to lay low  
Baby I can sleep when I'm dead

Mixing liquor with depression  
Isn't good for anyone  
Blame it on my adolescence  
Fucking up is too much fun

I'm not sorry  
That I crashed your party  
When I crashed my car in your parent's yard  
And passed out on Sunset Boulevard  
I'm not evil but my love is lethal  
The truth hurts sometimes but honestly  
You knew that I was crazy when you fell in love with me

Fucked up, broken bottles  
Every night's like Friday night  
They say that I got problems  
I don't really mind  
Fucked up, broken bottles  
Every night's like Friday night  
They say that I got problems  
Welcome to my life  
Just welcome to my life

I'm not sorry  
That I crashed your party  
When I crashed my car in your parent's yard  
And passed out on Sunset Boulevard  
I'm not evil but my love is lethal  
The truth hurts sometimes but honestly  
You knew that I was crazy when you fell in love with me  
You knew that I was crazy when you fell in love with me
