

Easy Baby

Hudson Taylor

You kept me in and out your pocket
As and when you wanted
Well every pocket's got a hole
You had me wrapped around you baby
Towing everywhere that I go
I couldn't kick you off

'Cause being with you baby
Was like seeing the same movie
The ending never seems to change
As a matter of facts it seems
Opposites don't always attract
So don't react if they do

Rest assured my mind's at ease
Now you're not around
Yes you can be sure
That I'm not looking to be found

If I wanted to
I'd get back at you
It would only be too easy baby
Only be too easy
To get back at you
Always wanted to
It would only be too easy baby
Only be too easy, yeah

You're like a skipping broken record
Playing the same moment
Playing the same moment
You say all you wanna do is
Help me to get through this
Well help me to get this through to you

Rest assured my mind's at ease
Now you're not around
Yes you can be sure
That I'm not looking to be found

If I wanted to
I'd get back at you
It would only be too easy baby
Only be too easy
To get back at you
Always wanted to
It would only be too easy baby
Only be too easy, yeah

Oh I know a thing or two
That could cause some ill repute
But that's just so beneath me
Darling best believe me

If I wanted to
I'd get back at you
It would only be too easy baby

Only be too easy
To get back at you
Always wanted to
It would only be too easy baby
Only be too easy

If I wanted to
I'd get back at you
It would only be too easy baby
Only be too easy
To get back at you
Always wanted to
It would only be too easy baby
Only be too easy
