

# I Will Be There for You

Hudson Taylor

Can't believe how much has changed  
It only feels like yesterday  
You were such a quiet girl  
Now you're taking on the world

If you feel in danger  
Know that I'm no stranger  
I will be there for you

Now it's time that we moved on  
From the place that we called home  
Don't be sad about it  
I am where your heart is  
I will be there for you

When you let your feelings out  
I have never felt so proud  
When somebody tells you  
What you can and can't do  
I will be there for you
