

Not To Blame

Hudson Taylor

Well let's look back
See what we've done
And it all worked out
In the long run
And it's not your fault
That I'm not there
You should be happy
Oh that I don't care

You say
I'm not to blame
You say
It's a different story
But I won't listen when you tell me no

I can stay
I had a hell of a time
But in my way
I've learned to face the crime

And all of the days that we seize to amaze,
that the everyday things and what everyday brings to your mind
And everyday I still find
The pleasure is always mine

You say
I'm not to blame
You say
It's a different story
But I won't listen when you tell me no

You say
I'm not to blame
You say
It's a different story
But I won't listen when you tell me
And I won't listen when you tell me
And I won't listen when you tell me no
