

Run with Me

Hudson Taylor

Now we're gonna set fire
To last year
Say goodbye to the songs and the old dreams we held dear
Set backs and all of those dead ends
And a million reasons why we gonna give it in

We're all in for the long road
We're all in for life
Run with me baby
I need you more than ever
I won't let you
Won't let you down

Saying all of those things that we don't mean
In the moment and forget who we are meant to be
Oh
I'll meet you at eye of the storm oh
Bring your kind heart with you
We're gonna need it once more

We're all in for the long road
We're all in for life
Run with me baby
I need you more than ever
I won't let you
Won't let you down

Come with me darling
I swear we gonna make it
I won't let you
Won't let you down

And all through winter, I
Been dancing with the angel
She says we'll be fine
Oh I

Run with me baby
I need you more than ever
I won't let you
Won't let you down

Come with me darling
I swear we gonna make it
I won't let you
Won't let you down
I won't let you
Won't let you down
