

## Cold Summer

Hudson Thames

Waiting here for you  
Hardest thing I've had to do  
Cut myself in two  
A part of me's still there with you

Is there any way out of this room  
Is there anyway way I wouldn't lose?

Keeping my heart on ice  
Turning off all these lights  
Don't it feel cold outside for the summertime  
Cold outside for the summertime  
Living my best damn life  
So why can't I sleep tonight?  
Don't it feel cold outside for the summertime  
Cold outside for the summertime

Remember twenty-two?  
I taught you how to play Hey Jude  
I tip my hat to you  
Cause now I really mean what I say when sing the blues

Is there any way out of this room?  
(I'll take it now)  
Is there anyway I wouldn't lose

Keeping my heart on ice  
Turning off all these lights  
Don't it feel cold outside for the summertime  
Cold outside for the summertime  
Living my best damn life  
So why can't I sleep tonight?  
Don't it feel cold outside for the summertime  
Cold outside for the summertime
