

Keep On Dancing

Hudson Thames

So many people, so little space to move
You're looking lethal
Let's jump into another groove
I just wanna get close to you
I've never been like this
All I see is you, you, you
I gotta be honest
It's time for me to make my move
And I just wanna get close to you

This room is skin tight
Oh, don't you feel like dancing, dancing
Keep on dancing
Under the spotlight
Oh, don't you feel like dancing, dancing
Keep on dancing now

My heart is racing to the beat, it's right on time
Just you and I out here partying
Under all the neon lights
Feels so good to be close to you

This room is skin tight
Oh, don't you feel like dancing, dancing
Keep on dancing
Under the spotlight
Oh, don't you feel like dancing, dancing
Keep on dancing now

Break it up, break it down
All alone, all night in the purple skies
Take me up, take me down
Bring it in real close, we can stay all night
When the night is calling
We're the ones who're falling down, down

This room is skin tight
Oh, don't you feel like dancing, dancing
Keep on dancing
Under the spotlight
Oh, don't you feel like dancing, dancing
Keep on dancing
This room is skin tight
Oh, don't you feel like dancing, dancing
Keep on dancing
Under the spotlight
Oh, don't you feel like dancing, dancing
Keep on dancing now
