Like It's Nothin'

Hudson Thames

Like a '68 DeVille
She was always dressed to kill
Like a dream I thought was real
Such a bitter pill, don't known how to deal
Honey, I...

I'm burning hotter than the sun
She told me she was born to run
Then she put me on her tongue
Took me like a drug
Did it just for fun

If I could, then I would ask you one last question
But I'm guessing that you wouldn't even know

How you breathe with a heart so cold?
How you pray with a hollow soul?
How you love me then let me go like it's nothing?
Now I'm broke and I'm all alone
Cause I bought every lie you sold
How you love me and let me go like it's nothing

Like a $30 bill
So fake you think it's real
You spun me like a wheel
Made me lose my chill
Did it for the thrill
Honey I...

Burning hotter than the sun
Said you never wanted love
But then you swept me up
Took me like a drug
Did it just for fun

If I could then I would ask you one last question
But I'm guessing that you wouldn't even know

How you breathe with a heart so cold?
How you pray with a hollow soul?
How you love me then let me go like it's nothing
Now I'm broke and I'm all alone
Cause I bought every lie you sold
How you love me and let me go like it's nothing

And do you shiver when you sleep in the night?
Deep in your mind, girl do you believe in your lies?
Are you cold, cold, cold, so cold

And do you shiver when you sleep in the night?
Deep in your mind, girl do you believe in your lies?
Are you cold, cold, cold, so cold

If I could, then I would ask you one last question
But I'm guessing that you wouldn't even know

How you breathe with a heart so cold?

How you pray with a hollow soul?
How you love me then let me go like it's nothing
Now I'm broke and I'm all alone
Cause I bought every lie you sold
How you love me and let me go like it's nothing

And do you shiver when you sleep in the night?
Deep in your mind, girl do you believe in your lies?
Are you cold, cold, cold, so cold
