

No

Hudson Thames

These days, my fear gets in the way of control
I can't say no
These days, I found the bottom's paved with Patron
I think that shows
Bigger that trigger, the harder we fall
Burning this house down wall by wall
No way to blame it on the length of my road
I can't say no

If I change my mind
Will you help me on my way tonight?
And if you change my life
Will you carry all my weight tonight?

These days it seems to come in waves now I know
I must say no
Sometimes the whites inside your eyes, they show
A long damn road
The softer your song, the harder you fall
Building this castle all by wall
Who knows but one thing is for sure we can grow
And can say no

If I change my mind
Will you help me on my way tonight?
And if you change my life
Will you carry all my weight tonight?

It's such a heavy load
Still I can't let go

If I change my mind
Will you help me on my way tonight?
And if you change my life
Will you carry all my weight tonight?

It's such a heavy load
But now I can't let go
