

Dopamine

Hudson Westbrook

Love is like an obstacle and I just can't get around it
I was searching for a while but then out of the blue I found it
Love's a game I was losing, a false illusion
A picket fence dream
But when I first saw you, I knew you were few and far between

'Cause you make me want to take all of my good whiskey
And pour it right on down the drain
Something in the way you kiss me
Is sending dopamine to my brain
And I ain't felt like smoking
I ain't been going out these days, and baby, I know why
'Cause I'm chasing a high
That money can't buy

They say anything is possible and baby I got the proof
'Cause I'm in a picture perfect daydream every time I'm next to
you
You can't find it on the shelf, naw it ain't for sale
It's a first time every time feeling
And baby every time you lean in, you make me wanna

Take all of my good whiskey
And pour it right on down the drain
Something in the way you kiss me
Is sending dopamine to my brain
And I ain't felt like smoking
I ain't been going out these days and baby, I know why
'Cause I'm chasing a high
That money can't buy

You make me wanna take all of my good whiskey
And pour it right on down the drain
Something in the way you kiss me
Is sending dopamine to my brain
And I ain't felt like smoking
I ain't been going out these days and baby, I know why
'Cause I'm chasing a high

And I know why
'Cause I'm chasing a high
That money can't buy
That money can't buy
