

Mine Tomorrow

Hudson Westbrook

I've been fightin' for this feelin'
I've been waitin' patiently
For someone to put the brakes on
My leavin' till it left me
Then you showed up, got it done
Now here we are, and I'll never run

As long as you're mine tomorrow
All my todays belong to you
As long as you love me, girl, I'll follow
Like it was all I was made to do
Till the whole wide world, runs outta time, I'll be fine
As long as you're mine tomorrow

Yeah, forever was a word
That you'd never hear me say
That was back before forever
Had a name and a pretty face
And a smile that turns any wrong around
Darling, it's alright, when the sun goes down

As long as you're mine tomorrow
All my todays belong to you
As long as you love me, girl, I'll follow
Like it was all I was made to do
Till the whole wide world, runs outta time, I'll be fine
As long as you're mine tomorrow
Tomorrow

Bridges can burn, rivers run dry
Cities could fall, but with you and I

As long as you're mine tomorrow
All my todays belong to you
As long as you love me, girl, I'll follow
Like it was all I was made to do
As long as you're mine tomorrow
All my todays belong to you
As long as you love me, girl, I'll follow
Like it was all I was made to do
Till the whole wide world, runs outta time, I'll be fine
As long as you're mine tomorrow
Tomorrow
Mine tomorrow
As long as you're mine tomorrow
