

## Take it Slow

Hudson Westbrook

Well, darling, are you confused?  
Don't know the things that I'd do  
Just to spend one more night in your bedroom  
And, well, I'd spend all my money  
And make you think that I'm real funny  
Buy some walking shoes  
I'd start running so that I could see you soon

So, baby, be mine  
It'll be worth every bit of your time  
I got some glasses, Grigio  
The luck we had just ain't been what we sow  
Baby, I'm yours and you're mine  
And let's take it slow

It's 'bout time you show up  
Don't need any makeup  
I got a bathroom, it's made for two  
So I can put it right on you  
I'll shake the aching from your knees  
All the way up to your sleeves  
Give this town something that it can talk about

So, baby, be mine  
It'll be worth every bit of your time  
I got some glasses, Grigio  
The luck we had just ain't been what we sow  
Baby, I'm yours and you're mine  
And let's take it slow

So, baby, be mine  
It'll be worth every bit of your time  
I got some glasses, Grigio  
The luck we had just ain't been what we sow  
Baby, I'm yours and you're mine  
And let's take it slow
