

# Boys Don't Cry

Hugo Helmig

Hand me the scissor, baby  
'Cause I'm scared that you might want to cut me off  
Never good at listening  
But I heard it when you said you had enough  
Oh, your words couldn't be any clearer  
But it took me a while to understand  
Now it hurts when I look in the mirror  
But I'm fine, when you ask how I am

Wear your mask 9 to 5  
Boys don't cry  
Medicine and four-wheel drives  
Boys don't cry  
Just forget the past and dry your eyes  
Boys don't cry  
Finally we said goodbye  
Cause boys don't cry  
Don't cry

Never hard for me to see  
That all the lies I told myself were true  
'Cause we become what we pretend to be  
And I pretend that I was there for you  
Oh, your words  
Couldn't be any clearer  
But it took me a while to understand  
Now it hurts when I look in the mirror  
But I'm fine, when you ask how I am

Wear your mask 9 to 5  
Boys don't cry  
Medicine and four-wheel drives  
Boys don't cry  
Just forget the past and dry your eyes  
Boys don't cry  
Finally we said goodbye  
Cause boys don't cry  
Don't cry

Silently we're lying  
Watch out for the truth  
Quietly denying  
The fire on the fuse  
Silently we're lying  
Watch out for the truth  
Quietly denying, yea yea we're lying

Silently we're lying  
Watch out for the truth  
Quietly denying  
The fire on the fuse  
Silently we're lying  
Watch out for the truth  
Quietly denying, yea yea we're lying  
Watch out for the truth  
Watch out for the truth

Wear your mask 9 to 5  
Boys don't cry  
Medicine and four-wheel drives  
Boys don't cry  
Just forget the past and dry your eyes  
Boys don't cry  
Finally we said goodbye
