

One Plus One

Hugo Helmig

I know it feels like you're drowning in a river I'm swimmin' in
I guess we took a wrong turn, I guess I took a wrong turn
Don't fight me, I never meant to be your enemy
I guess I should love you, I guess I should love you

I kept running around, wasting your time
I was wrong and you were right
We should be together
Stronger when we're unified

'Cause one plus one makes one
One plus one makes one
You and I
One plus one makes one

I know it feels like poison in the air that you're breathing in
I guess we took a wrong turn, I know I took a wrong turn
Please stay with me, 'cause I wanna be your everything
I guess I should love you, I'm so ready to love you

I kept running around, wasting your time
I was wrong and you were right
We should be together
Stronger when we're unified

'Cause one plus one makes one
One plus one makes one
You and I
One plus one makes one
One plus one makes one
You and I
One plus one makes one

Now I just can't fall asleep
Can't you see what you're doing to me?
I'd never fell so in between

'Cause one plus one makes one
One plus one makes one
You and I
One plus one makes one
One plus one makes one
You and I
One plus one makes one
