

You Make Me Feel

Hugo Helmig

(You make me feel so in love)
(You make me feel so in love)

You're giving me the goose and the bombs
Straight in the cup
It's never enough
Cause I'm living with the pain that I love
It's strange that you trust me
When you know that I'm fucked up
Alone in bar right now
Too drunk to see clear right now
I'm way too young to be here right now
I need you here right now

(You make me feel so in love)

Do you feel ashamed of me?
Well I know that you do
And I always kinda knew
That you want everything
I might not be
Feeling kinda useless
Not on your to do list
And I wake up every morning
Hoping I wont be around
Cause I miss you every moment
I need you here right now

(You make me feel so in love)
(You make me feel so in love)

I thought you would be the one, no
But seems you're really gone
If I get out would you come home, no
I don't wanna be alone
Well, I know that the medicine numbs the pain
But it will never take it away
I gotta pass on ya, even though I really don't like to
I see you're on vacation
'Cause it really looks like you've been working out
And you found someone you really care about
And I'm alone in bar right now
Too drunk to see clear right now
I'm way too young to be here right now
I need you here right now

(You make me feel so in love)
(You make me feel so in love)
