

Young Like This

Hugo Helmig

You know, I know
That some days are gonna be a little bit better
Who knows, how it goes
And if we ever learn

Hard days, long nights
Cold drinks are drippin' on my favorite sweater
I hope, you know
That it's our turn

When we're young like this
And we're dumb like this
Having fun like this
It's alright
To be young like this
Or feel young forever

When we're young like this
And we're dumb like this
Every night like this
It's alright
To be young like this
And stay young forever

I know, time goes
But these days, just wanna make 'em last forever
We won't remember
The nights we went to sleep
(All those nights)

And that yesterday
Is no longer tomorrow
I can't remember [?]

That when we're young like this
And we're dumb like this
Having fun like this
It's alright
To be young like this
Or feel young forever

When we're young like this
And we're dumb like this
Every night like this
It's alright
To be young like this
And stay young forever

I've never been this old before
And I'll never be this young again

When we're young like this
And we're dumb like this
And we're wastin' time
It's alright
We can always try
To stay young forever

When we're young like this
And we're dumb like this
And we're young like this
We'll stay young forever

Oh when we're young like this
And we're dumb like this
We can always try
To stay young forever
