

# Higher

Hulvey

Ain't nobody that can bring me down  
And I ain't afraid, afraid  
Battle ragin', but I stick around  
For eternity  
And I can take you higher, so much higher than you've ever been (I can take  
you higher than you've ever been)  
Let me take you higher, so much higher than you've ever been  
I'm so high up, can't fall now

I've been on a ride  
Been on my journey to the skies  
Can't waste no time  
I've been waitin' all my life  
Ain't no lie (Ain't no lie)  
And now I'm finna shine, shine  
Time ain't cheap, strapped down in my seat, ride with me  
I feel like JT, 'cause I stay in sync, I believe  
That a new day gon' come  
I know the pain gon' come  
I know the rain gon' come  
But we gon' run our race all the way  
I'll have no regrets if I die today, yeah  
If they try to stop me, I'ma find a way (Find a way)  
Hop inside my destiny and fly away  
Goin' higher than I've ever been, outer space

Ain't nobody that can bring me down  
And I ain't afraid, afraid  
Battle ragin', but I stick around  
For eternity  
And I can take you higher, so much higher than you've ever been (I can take  
you higher than you've ever been)  
Ayy, woo  
Let me take you higher, so much higher than you've ever been  
I'm so high up, can't fall now

Bet, uh, I had to run up the jet (Jet)  
We was at North Glynn playin' B-ball, had to run up the net, uh  
In God I trust (Trust), in God I flex (Flex)  
Wicktown to the A, I don't even know what's next (Next)  
I've had bad days and good days, but God still love me  
I go higher than I've ever been when I'm on my knees  
Please, be my everything  
Never make a change if I never change  
My soul inside me gon' elevate, gon' fly today  
Now my way to the sky, man  
Go highways and byways with You  
I drove five hours to the A-town, man everything been new  
You makin' big moves  
I would've never knew  
That You'd grab me off the floor and take me through the roof

Ain't nobody that can bring me down  
And I ain't afraid, afraid  
Battle ragin', but I stick around  
For eternity  
And I can take you higher, so much higher than you've ever been (I can take

you higher than you've ever been)

Ayy, woo

Let me take you higher, so much higher than you've ever been

I'm so high up, can't fall now

Let me take you higher, so much higher than you've ever been

I can take you higher than you've ever been

Take me high

Can you take me higher?

Let me take you higher, so much higher than you've ever been

Take me high

Can you take me higher?

(I'm so high up, can't fall now)
