

# Miracles

Hulvey

Ay, You're still doing miracles  
Ay, You're still doing miracles  
You're still doing miracles  
You're still doing miracles  
You're still doing, You're still doing

Never ending, no pretending  
I know it don't feel like life worth living  
Got so many times paralyzed by the feeling  
I know that you cry, but He cries for His children  
Hard to hold it in when the fam ain't together  
Ten minutes apart but it feel like forever  
She just wanna walk but her legs won't let her  
So we praying right now "Lord bring down Heaven"

Child open up your eyes (Eyes), open up your lungs (Lungs)  
Let His healing flow, it's already done  
You're still doing miracles  
Ay, You're still doing miracles  
You're still doing miracles  
You're still doing miracles  
You're still doing miracles  
You're still doing, You're still doing

No one's like our God (Our God), can't finish what He already s  
tarted (Oh)  
I know He close to the broken-hearted, He can take that cancer  
He'll take where your heart is  
Kept His hand on my son when I thought it was done  
Forgot it was done through the Father and the Son  
Holy Spirit put breath back into his lungs  
Can't tell me that God isn't real, this is love

Child open up your eyes (Eyes), open up your lungs (Lungs)  
Let His healing flow, it's already done  
You're still doing miracles  
Ay, You're still doing miracles (You are)  
You're still doing miracles (You're still doing)  
You're still doing miracles  
You're still doing, You're still doing  
You're still doing miracles  
Ay, You're still doing miracles (You are)  
You're still doing miracles  
You're still doing miracles  
You're still doing, You're still doing
