

# True

Hulvey

The truth is you matter so much to me  
I'll never let you go, you stay close to me  
I don't wanna lose you  
I just wanna choose you  
Handing my burdens to you  
I ain't gotta fool you  
Seeing right through you  
Even in the pain see the true you  
Really got passion  
Never been flashy  
Never need a man to approve you  
Seen the world try to crush you  
But you show love to 'em  
Turn your cheek when they bruise you  
Slide through the east and the west  
With a lot on my chest  
But I know that you got me yeah  
Walk in this world full of death  
With a pep in your step  
The foundation is solid, yeah

You on it, check  
You worth it, check  
You're perfect, check  
Reflection (Let's go)  
Can it be true? Ooh  
You love me how you do? Ooh  
Can it be true? Ooh  
You love me how you do? Ooh

Can it be true? Ooh  
Can't lead these sons and daughters without you, yeah  
Your heart is pure, this water so brand new (Brand new)  
Ain't gotta fake or front, I'll fight the truth with you  
Consumed by you  
Keeping the flame, yeah (Yeah)  
Do nothing in vain, yeah  
I get up too high, you calling my pride  
You see me the same, yeah

Okay, you on it, check  
You worth it, check  
You're perfect, check  
Reflection, check

Can it be true? Ooh  
You love me how you do? Ooh  
Can it be true? Ooh  
You love me how you do? Ooh (Love me how you do)

Ay, okay, you on it, check  
Worth it, check  
Perfect, check  
Reflection, check  
You on it, check  
Worth it, check  
Perfect, check

Reflection, uh

Can it be true? Ooh  
You love me how you do? Ooh  
Can it be true? Ooh  
You love me how you do? Ooh

It's cold in this city  
So I'll be your light  
And when I find you with me  
I will hold you, I will hold you
