

Lucifer's Waltz

Human Fortress

Dancing around in circles
Moving, swinging - make steps back and forth
I am one with the rhythm
Indulge on my passion - performing my Waltz

Humming along to the music
Self-absorbed in the sweet melody
Gliding in light as a feather
Straighten up and flying away

One moment
Remember
My devil's pact
Feels like ember

Stand on the edge
Stand on the edge of my life
I walk on a tightrope
My final act to survive
Dancing Lucifer's Waltz

I am a star I'm a master
When they admire my pure elegance
Look at my facial expressions
Awestruck and swollen with pride

Allow our pact to expire
Paying the price for my fortune and fame
Deprive my invaluable talent
Now I get lost - I'm no prodigy

I'm broken
Bog-standard
He took my soul
Abandoned

Stand on the edge
Stand on the edge of my life
I walk on a tightrope
My final act to survive
Dancing Lucifer's Waltz
