

Bone Dust

Humanity's Last Breath

The intent of humanity
A cancer growing on this Earth

The obscene reproduction
Of our kind (Of our kind)
Insects infesting
A decaying hive

The intent of humanity
A cancer growing on this earth
A world unrecognizable
Buried, forgotten, erased
Buried, forgotten, erased
Buried, forgotten and erased

Just fucking start the fire
To engulf what's left

Just start the fire
To engulf what's left
Fan the flames of erasement
Such a blaze
Just start the fire
To engulf what's left
Fan the flames of erasement
Nothing left

Scorched planet
Such a flame (Such a flame)
Blinding the blind
No ashes remain
Just start the fire
To engulf what's left
Fan the flames of erasement
Nothing left

Bathe in the piles of bodies
Drink from the spring of harm
Death is carved into this world

Bathe in the piles of bodies
Drink from the spring of harm (Spring of harm)
Snort the dust from pulverized bone
Death is carved into this world
