

# Dehumanize

## Humanity's Last Breath

Profound mass misery

Earth dwellers weeping  
Procreating the end  
In ignorance and shame  
Know that all of you are the same

Endless cries of pain and sorrow  
Won't make it hurt less  
The promise of death  
Forever kept

Dehumanize, lead them to death  
Convince them there's nothing left  
Oppress them until  
They are empty of will

The promise of death  
Forever kept  
The clenched grip of the void  
So deliberate

Force your will upon them  
Desecrate their shrines of worship  
Make them succumb  
The promise of death  
Forever kept

Dehumanize, lead them to death  
Convince them there's nothing left  
Oppress them until  
They're empty of will
