

# Make Me Blind

## Humanity's Last Breath

Make me blind so that I can avoid the ugly  
Is this your creation?  
I can only see the wretched filth that is being

That is being

Cannot escape, cannot stand it  
I can't see the light, blinded by black  
Punish me, evil thoughts blocking me  
Punish me God, I cannot see you

Bigotry is the disease of ignorance  
Bigotry is the disease of man  
If we deny having made a mistake  
We are deceived and there's no truth in us

Make me blind so that I can be spared  
Seeing the disease that is man

Realizing the false prophet I slowly fade  
Violence building inside of me  
I am now on nobody's side but my own  
Nothing is worth anything  
Salvation is just an illusion

Make me blind  
So that I can avoid the ugly  
Is this your creation?  
I can only see the wretched filth that is being

Make me blind
