The air's unsafe
Don't look away
The world's insane
Get it on tape
Though the air it hurts you
Don't look away
When all is said and done
No one will remember
Joyous choke
On your smoke
Fallen down a hundred thousand times
We rise

One thousand and one of us
All in all
Surrounded on all sides
Holding on to our signs
Holding our words high
High as we can
Let the cameras see
See us all away
Away in chains
