

Shine On

Humble Pie

Find it hard to see you in the dark
I looked around, you were beside me
Don't you realize it's hard to dream
Without your helping hard to guide me
This could be the one, if you will be my sun.

(Shine on)
'Cause I need someone around me when I'm down
(Shine on)
(Shine on)
Shine on me, shine on you, let it shine on
(Shine on).

Look about and tell me what you see
Noise and dirt and plastic people
'Cause love is clean and ours has been
A bluer shade of jade there than that's provided
Take me on a ride girl
Right there by my side, Lord.

(Shine on)
Shine on me, shine on you, let it shine on
(Shine on)
(Shine on)
All I have to do is let it shine on
(Shine on).

(Shine on)
Shine on me, shine on you, let it shine on
(Shine on)
(Shine on)
All I have to do is let it shine on
(Shine on)
Shine, shine on, shine on me
Shine on, shine on, shine on you
Shine on, shine on
Shine on, shine on me, shine on you, let it shine on..
