

## Teenage anxiety

Humble Pie

And if my time would serve me well  
Oh what a story I could tell  
About the places that I've seen  
And the people that I've been

It's tough out there  
It's rough out there  
I'm beginning to think I've had enough out there  
It's tough out there  
It's rough out there  
It ain't what we been told out there

They shot my hero in the street  
And as I sing the world still weeps
