## **Teenage anxiety**

## **Humble Pie**

And if my time would serve me well Oh what a story I could tell About the places that I've seen And the people that I've been

It's tough out there
It's rough out there
I'm beginning to think I've had enough out there
It's tough out there
It's rough out there
It ain't what we been told out there

They shot my hero in the street
And as I sing the world still weeps
