

## Murmurs

## Hundred Waters

I wish you [x34]  
I wish you would see what I see  
I wish you [x9]  
I wish you would see what I see

Lead a lead a light of thee  
You used to used to see  
How you only only need  
To blow them out

Yesterday was your birthday  
Happy birthday

200 candles  
A liar, a scandal  
A fire through the roof  
When I called you

Were you there? Were you there?  
Were you ever alive?

Wish I would see what you see  
Wish I would see what you see

Lead a lead a light of thee  
You used to used to see  
How you only only need  
To blow them out

Lead a lead a light of thee  
You used to used to see  
How you only only need  
To blow them out

Lead a lead a light of thee  
You used to used to see  
How you only only need  
To blow them out

Silly silly silly me  
I used to used to see  
Now our only only light  
Is blowing out
