

Takeover

Hundred Waters

Fly on the dash
Sideways glancing
Rolling past
Will you take over now
Will you take over now

Cause I've been at it overtime
Think I'm losing my mind
In dead-end conversation

Slow it down
Things you haven't said
Broken glass
Will it take over now
Will it take over now

Cause I've been at it overtime
Think I'm losing my mind in
Useless abstract chatter

Don't break down
Don't break down
I can take over now
I can take over now
