

Big Love

Hundredth

Big love, so what
You wanna run but I'm here now
You can lie, a little one
And say you won't
But I'm here now
I can't change and if you wanna slide
Either way, yea you're stuck in my
Big love, so what
You wanna run
But I'm here now

How many signs you gonna wait for?
Yea I know you're scared to say you want more
Well I don't blame you if you're gun shy
Keep on saying it's the wrong time but
How many signs you gonna wait for?
Till you find my

Big love, so what
You wanna run but I'm here now
You can lie, a little one
And say you won't
But I'm here now
I can't change and if you wanna slide
Either way, yea you're stuck in my
Big love, so what
You wanna run
But I'm here now

Sharpen the blade and eat your heart out
I'm gonna break and eat the whole house
You're starving for something that you can't find
Come on over to the Dark Side
Sharpen the blade and eat your heart out
Yea take a bite of my

Big love, so what
You wanna run but I'm here now
You can lie, a little one
And say you won't
But I'm here now
I can't change and if you wanna slide
Either way, yea you're stuck in my
Big love, so what
You wanna run
But I'm here now

Oh look at us
Made it a little too far to make a fuss
Settle down on the coast and fight the rust
Cuz I ain't got a lot but it's enough
Yea take a bite of my

Big love, so what
You wanna run but I'm here now
You can lie, a little one
And say you won't

But I'm here now
I can't change and if you wanna slide
Either way, yea you're stuck in my
Big love, so what
You wanna run
But I'm here now
