

I said jump
Fall out as you wish
I put you on the fence
To meddle with the plains
I'll fix it like the rest
But it comes in cycles
I see it now and again

We're waiting for something
To iron it all out
You've been crawling and blistered
Foaming at the mouth
You've been waiting to feel it
Destined by design
So sing it in your circle
Cause maybe all this time
You were right

Blitz and hold
Break it off
Wreck the tide
And come around again
Blitz and hold
Break it off
Take the ride
Push it to the end

I keep spinning
In the same old dream
Where I throw ten pennies
In the Salton Sea
Just to wake up and find
That I wasted my time
Cause I could have had it all if I
If I woulda gave a dime

Yea, I keep spinning
In the same old dream
Where I throw ten pennies
In the Salton Sea
Just to wake up and find
That I wasted my time
Cause I could have had it all
C-c-c-c

Cause it happens all the time
Oh yea yea it happens all the time
Go and push it to the side
Oh yea yea push it to the side
Cause maybe all this time you were right

Maybe you were right
Maybe you were right
Maybe you were right
Cause maybe all this time

Blitz and hold

(You were right)
Break it off
(You were right)
Wreck the tide
(You were right)
And come around again

Blitz and hold
(You were right)
Break it off
(You were right)
Take the ride
(You were right)
Push it to the end
