

Burn Slow

Hundredth

It's on either side
When you hold it up to the light
Where it divides
Is wherever you draw the line

We're all on a dead end vine
Brace yourself it's a long ride
If we're rushing for gold
I'll be the last in line cuz I'm

I'm burning it slow
Burning it slow
The way I wanna go
I'm burning it slow
Burning it slow
The way I wanna roll
Rushing on
Don't make you wrong
We're on our own so
I'm burning it slow
Burning it slow
The way I wanna go

Don't have a minute to wait
When you're always on the chase
Flip through the page
So you can learn who to hate

We're all on a jagged bend
Stacking up shit just to forget
If time is a thief
I guess I'm giving in again

I'm burning it slow
Burning it slow
The way I wanna go
I'm burning it slow
Burning it slow
The way I wanna roll
Rushing on
Don't make you wrong
We're on our own so
I'm burning it slow
Burning it slow
The way I wanna go

Cuz feeling the feeling
Is half of the reason
We're dreaming of sinking
Diving off the deep end
Cuz feeling the feeling
Is half of the reason
We're dreaming of sinking
Diving off the deep end

I'm burning it slow
Burning it slow

The way I wanna go
I'm burning it slow
Burning it slow
The way I wanna roll
Rushing on
Don't make you wrong
We're on our own so
I'm burning it slow
Burning it slow
The way I wanna go

Burning slow
Burning slow
The way I wanna go
Burning slow
Burning slow
The way I wanna roll
