

Curve

Hundredth

You should tame your vice
You should pay your price
Cuz you're gonna love it
So you try till you die
Don't pay no mind
To the brazen lies
That you don't hear
Slaving to the end
But it all gets spent

You wanna curve the bend
Slow the descent
But you're still swaying
Side to side
And now
You wanna swerve to the end
Wearing thin
You're sat there waiting
You're stuck contemplating
And there it goes again
Watch it spiraling
And it all gets spent

You stare at the ground
Your head in the clouds
Is it glowing?
It spins around
Is it slowing?
Is it coming down?

You wanna curve the bend
Slow the descent
But you're still swaying
You're stuck contemplating
And there it goes again
Watch it spiraling
And it all gets spent

It all ends up where it started
The feeling's over now
Next time you can try harder
If only it comes around

You wanna curve the bend
Slow the descent
But you're still swaying
Side to side
And now
You wanna swerve to the end
Wearing thin
You're sat there waiting
You're stuck contemplating
And there it goes again
Watch it spiraling
And it all gets spent
