

Dark Side

Hundredth

I guess I'll see you on the dark side
Cuz here we go again
I feel it all go wrong
Can you shake it?
Yea, he does this often
Feel it all, feel it all go
Can you make it
All the way down
And crawl back out
See you on the dark side
Cuz here we go again
Feel it all, feel it all go
Can you shake it?

Slight spin
Fading light
Fight through
Cut the knife
Try again
Get it right
Settle in
Take a big bite

Look at the mess you make
When you go all the way
You go all the way
Drown in everything
And watch it all sink the same

I guess I'll see you on the dark side
Cuz here we go again
I feel it all go wrong
Can you shake it?
Yea, he does this often
Feel it all, feel it all go
Can you make it
All the way down
And crawl back out
See you on the dark side
Cuz here we go again
Feel it all, feel it all go
Can you shake it?

Can you shake it?
Can you shake it?
Can you shake it?

Feeling low
Sick and tired
Of making lust
With no desire
Try to shine
Turn a dime
Settle in
Wasting your time

Look at the mess you make

When you go all the way
You go all the way
Drown in everything
And watch it all sink the same

It's such a funny thing
You're sick and tired of it
It's such a funny thing

I guess I'll see you on the dark side
Cuz here we go again
I feel it all go wrong
Can you shake it?
Yea, he does this often
Feel it all, feel it all go
Can you make it
All the way down
And crawl back out
See you on the dark side
Cuz here we go again
Feel it all, feel it all go
Can you shake it?

Can you shake it?
Can you shake it?
Can you shake it?
