

# Glimmer

## Hundredth

Bathing in the light  
Make it bright  
Keep it up till you feel alright  
Get dizzy on it  
But it settles over time

I see it in your eyes  
You look alive  
You say you don't mind  
Looking off off the sides  
'Cause you wanna  
You wanna feel alive

You're on your own again  
And if it all goes in the wind  
It takes a little time to break it  
It takes a little time to break it  
And it all depends  
If you can see it to the end  
It takes a little time to make it  
It takes a little time

Glimmer on the top  
Glimmer on the low  
Glimmer till you make it all turn gold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose  
Glimmer in the still  
Glimmer in the go  
Glimmer till it makes em all go cold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose  
So glimmer on it

Glitter in the sky  
Take a dive  
Free falling feels sublime  
Don't think about it  
Or try to figure it out

Waiting on the time  
Or a sign  
To give the go ahead  
Take you on a ride  
Looking for it  
While you watch it all unwind

Glimmer on the top  
Glimmer on the low  
Glimmer till you make it all turn gold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose  
Glimmer in the still  
Glimmer in the go  
Glimmer till it makes em all go cold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose

So glimmer on it

Glimmer on it  
Glimmer on it  
Glimmer on it  
Glimmer on it, oh yeah  
Glimmer on it, oh yeah  
Glimmer on it  
Glimmer on it

Glimmer on the top  
Glimmer on the low  
Glimmer till you make it all turn gold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose  
Glimmer in the still  
Glimmer in the go  
Glimmer till it makes em all go cold  
'Cause you know there's nothing left to choose  
You know there's nothing left to lose  
So glimmer on it

Glimmer on it  
Glimmer on it  
Glimmer on it  
Glimmer on it, oh yeah  
Glimmer on it, oh yeah  
Glimmer on it  
Glimmer on it
