

Get under my skin  
Drive me up the wall  
I will just pretend  
Nothing is ever my fault

Everyone is grey  
Everyone is acting out  
Caught in the chains  
Sync into the synthesis

Go around  
Don't make enemies  
Reassure yourself  
Society is what you need

Hide the pain  
Just take the pill  
Swallow down  
Don't want to feel like this

Everyone is grey  
Everyone is acting out  
Caught in the chains  
Sync into the synthesis

Everyone is grey  
Everyone is acting out  
Caught in the chains  
Sync into the synthesis

It comes in waves  
Walk slow through the pouring rain  
Take yourself outside  
And hope the colors change

It comes in waves  
Walk slow through the pouring rain  
Take yourself outside  
But you can't escape

Everyone is grey  
Everyone is acting out  
Caught in the chains  
Sync into the synthesis

Everyone is grey  
Everyone is acting out  
Caught in the chains  
Sync into the synthesis
