

Hole

Hundredth

Time
Time dissolving me
Forget
Forget about the pain

Just long enough
For your shadowplay
And we're all wrapped up
Passing through the grain

Compose
You know
Feel it out
But never let it show
Compose
You know
You'll never find
Enough to fill the hole
Enough to fill the hole
Enough to fill the hole

Climb
Up to see nothing
Throw
Everything away

Open up
Shed yourself of shame
Anything to get your skin in the game

Compose
You know
Feel it out
But never let it show
Compose
You know
You'll never find
Enough to fill the hole

Come around to find it
Feel it out, never let it show

You'll never fill the hole
You'll never fill the hole

Never compose
You know
Feel it out
But never let it show
Compose
You know
You'll never find
Enough to fill the hole
Enough to fill the hole
