

Melancholia

Hundredth

Try tonight
Deny yourself
The wounds do hasn't healed

Saw you
Caught on lies
The moment started to ignite you
But I wanna stay inside

Melancholia
Bring yourself down
Just can't get enough

Wounds behind
Don't think yourself in the crowd
At least you try cage it up and throw it now
Spin yourself around
And you'll find
Too many laying on the ground

Melancholia
Gazed into the drawn
Just can't get enough

Get enough
It's hard enough
We're rising now
Coming down

Turn around
Deep through
Charging up from hearing this song

Melancholia
Addictive to the sound
Just can't get enough

Melancholia
Bring yourself down
Gazed into the drawn
Addictive to sound
Just want to feel something
So come back alive

Melancholia
Come back alive
Just can't get enough

Melancholia
Come back alive
Just can't get enough
