

Covered in chrome  
When you're on your own  
You're walking the rails  
But you won't look below

And I know we all want to change  
But here's how it often goes  
Dive in straight  
Don't wanna wait  
Cuz time moves slow  
(On and on and on and)

And it's all settling in  
We're on the fringes now  
So tie it up, sever it off  
While it's dulling down  
We're scared to be alone  
Go back to where we've been  
Scared to roam from what we know  
Silver in the glow again

(Again and again and again and...)

Maybe we're wrong  
When we say the thrill is long gone  
Put it on until the words  
Set in stone  
(On and on and on and)

And it's all settling in  
We're on the fringes now  
So tie it up, sever it off  
While it's dulling down  
We're scared to be alone  
Go back to where we've been  
Scared to roam from what we know  
Silver in the glow again

Silver glowing  
Silver glowing  
Silver glowing  
Silver glowing

...
