

# Waste

Hundredth

Everything's a waste

Gonna sort it out  
And everyone you know  
Raze the sun  
Till they all go cold

I can't fold  
Gotta make it count  
In a daze while I  
Walk them backward

Run away  
But you can't get out  
Gonna sever your soul  
Cause

Everything's a waste  
Put it in place

And I feel like I'm a cage  
It's in my head  
It's on my brain

The fate I'm trying to break  
Silence everything you say  
Cause everything's a waste

It's a calm hurricane  
Between me  
And the giver of shame

I can't fold  
Gotta make it count  
In a daze while I  
Walk them backward

Run away  
But you can't get out  
Gonna sever your soul  
Cause

Everything's a waste  
Put it in place

They say why is it me?  
Just tell me honestly  
Jagged peace  
Takes what you took from me

Pack it up  
Make it count  
No one left to make a sound

Caged me up  
Breaking out  
Gonna make em' all

Hate me now

Everything's a waste  
Put it in a place

And I feel like I'm a cage  
It's in my head  
It's on my brain

The fate I'm trying to break  
Silence everything you say  
Cause everything's a waste
