

# Everything Means Everything Meant Everything

HUNNY

We trace our names on dirty glass  
But our initials wouldn't last  
Collect my things off the floor  
All you gave me was indifference

Every time she changes her lipstick  
Every time she changes her lipstick

She said that  
It meant everything  
She said that  
Everything means everything  
Means everything meant everything  
To me

I hope my funeral is short and sweet  
Without the frill or pageantry  
Collect my things off the floor  
All you gave me was indifference

Every time she changes her lipstick  
Every time she changes her lipstick

She said that  
It meant everything  
She said that  
Everything means everything  
Means everything meant everything  
To me

Every time she changes her lipstick  
Every time she changes her lipstick

Changes her lipstick  
Changes her lipstick
