

# solo

HUNNY

Stick around, you know you're empty-handed  
Stay awhile or you won't believe  
You know that I care  
But life's just not fair

Stick around until you just can't stand it  
Stay awhile like you promised me  
I know that you care  
But life's just not fair

I'm overreacting  
I wanna figure out just what makes you happy  
Turn around, say it loud  
I don't wanna leave you solo  
Every time I leave you solo

I'm overreacting  
I wanna figure out just what makes you happy  
Turn around, say it loud  
I don't wanna leave you solo  
Every time I leave you solo

Don't call me crazy  
Just call me back  
Don't call me crazy  
Just call me right back

Don't call me crazy  
Just call me back  
Don't call me crazy  
Just call me right back

Don't call me crazy  
Just call me back  
Don't call me crazy  
Just call me right back

Don't call me crazy  
Just call me back  
Don't call me crazy

I'm overreacting  
I wanna figure out just what makes you happy  
Turn around, say it loud  
I don't wanna leave you solo  
Every time I leave you solo

I'm overreacting  
I wanna figure out just what makes you happy  
Turn around, say it loud  
I don't wanna leave you solo  
Every time I leave you solo

I don't wanna leave you solo  
Every time I leave you solo  
I don't wanna leave you solo  
I don't wanna leave you...
