

Lonely

Hunter Brothers

I will leave the neon lights and all that buzz downtown
I will leave a rear view blacktop trail of dust right now

I'll leave that Chevy engine smokin'
Leave that screen door swinging open
Baby all you gotta do is call

I'll never leave you lone-lone-lonely
You're that one and only
Darlin' lay it on me, tonight
I'll never leave your heart heart-broken
And I love you unspoken
Oh baby don't worry, no I'll...
Never leave you lonely, lonely
I'll never leave you lone-lone-lonely
Lone-lone-lonely

I will leave a million kisses right there on your lips
I will leave a memory of a slow dance on your hips

I'll leave a wild rose sittin'
On the counter in the kitchen
And a napkin note says baby I sure miss ya

I'll never leave you lone-lone-lonely
You're that one and only
Darlin' lay it on me, tonight
I'll never leave your heart heart-broken
And I love you unspoken
Oh baby don't worry, no I'll...
Never leave you lonely, lonely
I'll never leave you lone-lone-lonely
Lone-lone-lonely

Even when it's time for me
To go and leave this world behind
I'll leave you with a million memories
And this heart of mine
Even when its time for me
To go and leave this world behind
I'll leave you with a million memories
And this heart of mine

I'll never leave you lone-lone-lonely
You're that one and only
Darlin' lay it on me, tonight
I'll never leave your heart heart-broken
And I love you unspoken
Oh baby don't worry, no I'll...
Never leave you lonely, lonely
I'll never leave you lone-lone-lonely
Lone-lone-lonely

I will leave a rear-view blacktop trail of dust
Right now
