

Lost

Hunter Brothers

I was way out in a motel town
Gasing up and not slowing down
No service and no glove box Rand McNally
She flashed a sweet tea coffee smile at me
An angel trapped in apron strings
So I stayed until that open sign stopped blinking

I said "I wanna stay right here, right here, right here"
She said "If you're leavin' why don't you take me?"

And I got lost in her eyes, I was losin' my mind
Like the sun runs into summer, we were meant to find each other
Only one way in and one way outta town
But you don't leave the kind of feelin' that I found
When I got lost
I got lost

The world out there's a passin' train
This town don't but the season's change
We're just front-porch kissin' like it's goin' out of style

Let's stay right here, right here, right here
All the crazy places she takes me

And I got lost in her eyes, I was losin' my mind
Like the sun runs into summer, we were meant to find each other
Only one way in and one way outta town
But you don't leave the kind of feelin' that I found
When I got lost
I got lost

You don't leave the kind of feelin'
You don't leave the kind of feelin'
You don't leave the kind of feelin' that I've found
(You don't leave the kind of feelin')
You don't leave the kind of feelin'
You don't leave the kind of feelin'
You don't leave the kind of feeling that I've found

And I got lost in her eyes, I was losin' my mind
Like the sun runs into summer, we were meant to find each other
Only one way in and one way outta town
But you don't leave the kind of feelin' that I found
When I got lost
(I got lost, I got lost)
I got lost
(I got lost, I got lost)
