

## Next Year

Hunter Brothers

Caught a glare in the rearview mirror  
Tomorrow's closer than it appears  
Polaroid, on the dash  
Man don't it all fade fast

All the shoulda dones, never did  
Shoulda called when I didn't always  
Always time but there isn't  
Wish I woulda known back then  
Send a note to myself  
Sayin' somethin' 'bout livin'

Livin' in the moment  
Time's slippin', tryna hold it  
What if these are the good ol' days right here?  
I don't wanna hear me say next year, next year

Maybe if I woulda  
Took my phone and shut it off  
I wish we woulda just talked  
And every year since you left  
I pray this one hurts less

All the shoulda dones, never did  
Shoulda called when I didn't  
Always time but there isn't  
Wish I woulda known back then  
Send a note to myself  
Sayin' somethin' 'bout livin'

Livin' in the moment  
Time slippin', tryna hold it  
What if these are the good ol' days right here  
I don't wanna hear me say next year, next year

The hellos and goodbyes  
The lows and the highs  
Don't want no regrets but I got 'em  
Happens in a blink  
Quicker than you think  
Sure as spring turns to summer  
Turns to autumn

Livin' in the moment  
Time slippin', tryna hold it  
What if these are the good ol' days right here  
I don't wanna hear me say next year, next year

Livin' in the moment  
Time slippin', tryna hold it  
What if these are the good ol' days right here  
I don't wanna hear me say next year, next year  
I don't wanna hear me say next year, next year
