

Well, it's your birthday  
Let's act like it is  
And just go crazy  
Do what we want with no reason why  
Life ain't long enough  
So let's celebrate  
And get drunk on good love  
Remember what it's like to just dance all night  
We'll dance all night

That's the way that we're doing it, doing it  
We go big or we go back home  
People looking at us like we're losing it, losing it  
But, baby, we ain't doing nothing wrong  
Gonna be up all night  
Chasing the sunrise  
Like we're wild and young  
Baby, kids on the run  
Gonna party like we just turned 21

Let's treat this town  
Like we own it  
And baby, if you wanna get out  
You can drive this car like you stole it  
Like we're runaways, like we're superstars  
Like we're fireworks burning in the dark

Ain't nobody wants to act their age  
Ain't no sense in us living this way  
You and I, girl, we gotta get away  
And make tonight the best night of our lives

Oh, we just having fun  
Yeah
