

# Falling and Flying

Hunter Hayes

Someone to hold  
Someone to trust  
Someone to stay  
Someone to love

You were a dream  
I was a child  
Felt safe in your arms  
And left in the wild  
You weren't just someone  
You were someone I wanted  
It's hard to believe I tried to love you so hard but

Here and now  
I see it different now  
I'm better lost than found  
'Cause once you leave the ground, you don't look down  
It's just me and the wind  
Learning to breathe again  
And the truth is I'm finding  
The difference between falling and flyin'

Someone who cares  
Someone who knows  
Someone to love  
Is more than someone you hold

The days I gave myself to you were the darkest  
I'm starting over  
And a good place to start is

Here and now  
I see it different now  
I'm better lost than found  
'Cause once you leave the ground, you don't look down  
It's just me and the wind  
Learning to breathe again  
And the truth is I'm finding  
The difference between falling and flyin'

Falling and flyin'

Someone to hold  
Someone to trust  
Someone to stay  
Someone to love

Someone who cares  
Someone who knows  
Someone to love  
Is more than someone you hold

Here and now  
I see it different now  
I'm better lost than found  
'Cause once you leave the ground, you don't look down  
It's just me and the wind

Learning to breathe again  
And the truth is I'm finding  
The difference between falling and flyin'
