

Ghosts

Hunter Hayes

Even when the scar fades
The sting stays
Even on my best days
I wanna run away
You'll never know it
I'll never say it
I live with the secret
Die with the feelin'

My only wish is that I didn't I care but I do

It's a "can't unfeel, can't unsee"
The one I love at loving me
When you think you know, you don't
That's what hurts the most
Can't unhear the melody
Can't unlive the history
Some doors you just can't close
That's why I believe in ghosts
Why I believe in ghosts

I've been drivin' all day and all night
Anythin' to get away, so why can't I?
All these planes, trains, and highways
Show me strangers with your face
I'm learnin' the hard way
How much can I take?

Try, oh I try, not feel like you're here but I do

It's a "can't unfeel, can't unsee"
The one I love at loving me
When you think you know, you don't
That's what hurts the most
Can't unhear the melody
Can't unlive the history
Some doors you just can't close
That's why I believe in ghosts
Why I believe in ghosts

Every move that I make
You're watching me
Every step I don't take
It's you stoppin' me

It's a "can't unfeel, can't unsee"
The one I love at loving me
When you think you know, you don't
That's what hurts the most
Can't unhear the melody
Can't unlive the history
Some doors you just can't close
That's why I believe in ghosts
Why I believe in ghosts
