

## High Road

Hunter Hayes

Livin' well is the sweet revenge  
On a roll, finally me again  
Say what you want to your friends, yeah  
But I'm doing fine, yeah  
Cheap shots 'cause you're good at that  
You burn your bridges while I strike a match  
I got blue sky and green grass  
And the only thing on my mind

I kinda don't care  
And I'm kinda done trying  
You ain't loyal  
I'm taking the high road  
I sent the past up in a cloud of smoke  
Got washed in the whiskey, cleanse my soul  
I'm letting you know  
And I'm taking the high road

Old flame with the new twist  
Old love runs fast when you're over it  
I'm lettin' that taste roll off of my lips  
On the up-and-up ever since we split, no 'cause

I kinda don't care (Kinda don't care)  
And I'm kinda done trying (Kinda done trying)  
You ain't loyal  
I'm taking the high road  
I sent the past up in a cloud of smoke  
Got washed in the whiskey, cleanse my soul  
I'm letting you know  
And I'm taking the high road

I wish you well, I mean it  
No bad blood, no hard feelings  
Hard to be mad, the way I feel right now, yeah

I kinda don't care (Kinda don't care)  
And I'm kinda done trying (Kinda done trying)  
You ain't loyal  
I'm taking the high road  
I sent the past up in a cloud of smoke  
Got washed in the whiskey, cleanse my soul  
I'm letting you know  
And I'm taking the high road
